PRESS RELEASE

TEE OFF IN THE TOURNAMENT THAT SUPPORTS AUTISM

*Dewhurst & Associates Announces Their Sponsorship
of the 19th Annual TERI Golf Tournament*

SAN DIEGO, March 19, 2008 – Dewhurst & Associates, a family-based custom home building and remodeling company, is proud to announce their sponsorship of TERI's 19th Annual Dirce Schwarz Memorial Golf Tournament. The Training Education & Research Institute (TERI) is an Oceanside based non-profit corporation serving individuals with developmental and learning disabilities and their families. Tournament proceeds will help build TERI's Center for Research & Life Planning, which is scheduled to break ground this year.

This campus is the first of its kind. It will support families with children with autism and other developmental disabilities and give them a way to access the services, consultation and planning they need. The Center for Research & Life Planning will also be dedicated to studying quality of life for individuals with autism in order to help these individuals conquer their disease.

“TERI is a wonderful organization and we are proud to be apart of what they do as they strive to build TERI's Center for Research & Life Planning campus, the first of its kind in the nation,” says Doug Dewhurst, President of Dewhurst & Associates. “One in 150 children are born with autism and the staff at TERI strives to meet the individual needs of their autistic clients.”

About TERI

The volunteers and researchers at TERI believe that every individual with autism and other developmental and learning disabilities has the right to lead a valued, meaningful and fulfilling life of uncompromised quality in their community. TERI's vision is to become an internationally recognized center of excellence and social change for education, life planning, health and fitness, research and provision of model programs for people of all ages and those who support them across their lifespan. For 28 years, TERI has provided an atmosphere where these individuals can live and thrive. They service 400 children and 200 adults per year.
